Meeting Scheduled for Public to Meet with BP Representatives on the “Vessels of Opportunity Program”

A special meeting has been scheduled for Wednesday, May 12 at 5:00 P.M. in the Bouvier Room at the Larose Civic Center (307 E. 5th St., Larose) to answer questions relating to the “Vessels of Opportunity” Program. This program allows vessel owners to submit their vessel as a potential candidate for use in the Deepwater Horizon oil spill response operations in the Gulf of Mexico. The South Louisiana Economic Council will host the meeting where vessel owners and operators can hear from BP officials and speak directly to BP and government agencies concerning the program. For more information, please call the South Louisiana Economic Council at 985-448-4485.
