Lafourche Parish Requesting Volunteers to Report Street Light Outages

Lafourche Parish Government is requesting assistance in indentifying public streetlight outages throughout the parish. Any civic group or person who is willing to take the time to identify and report public street light outages can do so by contacting Entergy Corporation at 1-800-ENTERGY (1-800-368-3749) or Lafourche Parish Government (985) 537-7506.

“Through this effort, we are simply encouraging residents to drive around their neighborhoods and report any street lights that are out,” said Parish President Charlotte Randolph. “This is one of the many ways parish residents can help us to better serve the public.”

Any private resident can report these outages at any time. Residential and/or Civic Associations for Developments and Neighborhood Watch Programs are also encouraged to participate.

Specifically, volunteers are being asked to identify public street light outages along neighborhood streets and other public streets and highways and report the outage location by street address or closest street address. Volunteers or groups are suggested to survey these are streets to report outages twice each month.
