Online “Drainage Issue Form” Now Available on Parish Website

As part of continuing efforts to make the parish more accessible to the public, Lafourche Parish Government has added a “Drainage Issue Form” to its website, <http://www.lafourchegov.org>. A link to the online form can be found in the Department of Public Works section of the website.

Any Lafourche citizen who wants to report a drainage problem of any kind can use this fast, easy online form to submit their concerns directly to Parish Government. A resident can simply log on to the site, fill out some personal contact information and a few quick details about the problem, and then submit their concerns. There is also a section at the bottom of the form to include more detailed information about a specific drainage issue.

Lafourche Parish Councilman Daniel Lorraine said this form will help the Parish to better identify problem drainage areas before they cause a serious problem. “This is going to help by giving us a general idea of where and what the problem is,” said Lorraine. “I see some of the problems in my area when I travel around, but this (form) allows you to tell us when you see a problem.”
