Road Work Continues in Raceland and Des Allemands

Lafourche Parish Government continues its comprehensive road improvements. One of the latest projects to be constructed focuses on the Raceland and Des Allemands areas. Barriere Construction recently began work on resurfacing streets and improving drainage work in the area.

This project includes Bayou Folse Road, a road that has not been paved in many years and had fallen into disrepair. Barriere is resurfacing over a half mile of old roadway and asphaltting an additional half-mile that had never be hard surfaced. "This road was in dire need of repair and hard surfacing," said Parish President Charlotte Randolph. According to project engineers with Picciola and Associates, Inc., Barriere should be finished overlaying Bayou Folse Road early this week, and will begin asphaltting driveways soon after.

The \$2.2 Million project includes a number of streets in addition to Bayou Folse Road. Milli Street, Dantin Street, Mitchell Street, Gibson Street, Fir Street, Hackberry Street, Cypress Drive, Fonseca Lane, Folse Street, West Bayou Road, East Dresner Street, St. Patrick Street, Amber Lane, Hospital Street and Pelican Drive are all slated for roadway or drainage improvement in this project. Work should begin on Milli Street and Dantin Street and in Raceland.

This project is one part of Lafourche Parish Government's continuing comprehensive roadway and drainage improvement project. Roads throughout the Parish are being resurfaced, roads that have never been hard surfaced are being done, and drainage is improving throughout the Parish. Projects have already been completed in the Raceland, Bayou Blue, Chackbay, Kraemer, and Mathews areas. A number of projects are currently under construction including concrete streets in area surrounding Thibodaux, road improvements in West Thibodaux, and a continuing road project in the South Lafourche area, to name a few.
