T-Bois Bridge Closed Due to High Tides

The T-Bois Bridge has been closed this afternoon due to an abnormally high tide. When the tide is extremely high the bridge closes to vehicular traffic because the deck of bridge rides to a point where damage could occur to vehicles moving onto and off of the bridge apron.

While this does not happen often, employees with the Department of Public Works made the decision to close the bridge this afternoon because of the high tide coupled with an intense south wind. The bridge will reopen when tide levels reach a lower level.

For further information contact Department of Public Works at (985) 537-7603.
