

BP FACT SHEET
LOOKING FOR JOBS WITH THE DEEPWATER HORIZON OIL SPILL?

BP, known as the Unified Command, along with regulatory agencies, federal, state and local governments are working on the largest oil spill response and recovery in and along the Gulf of Mexico. During this emergency, additional manpower may be needed in all capacities – cleanup, community outreach, health and safety, public and media relations, engineering, technology, operations, logistics, administration and business. BP is working with a number of contracting agencies to hire temporarily on a need basis. To find out more on job availability, contact the following agencies:
